**RE: Louisville Gas and Electric System Enhancement Project
US 60, Shelbyville Road**

Dear Mr. and Mrs. ?:

Louisville Gas and Electric Company and/or our contractors will begin working along Shelbyville Road starting week of May 20th as part of an electric system enhancement project from Dorsey Way to Blankenbaker Parkway. This work will consist of replacing poles, conductor and guying. This part of the project should be completed by December, 2019 (weather permitting), various telecommunication companies; such as, AT&T, Spectrum will be transferring their wires after LG&E completes their work.

We'll make every effort to complete this work in the most efficient manner and to minimize any inconvenience to you and others traveling through this area. We'll work to minimize traffic disruptions during the hours of 9 a.m. to 3 p.m., Monday through Friday. Ultimately, our number one priority is safety. LG&E employees and contractors will be working within the right of way of Shelbyville Road transferring and installing facilities to the new poles. Please be mindful of our crews' presence as you travel through the area while they are working. We also ask that you keep children and pets away from the active work site and any equipment that is being used.

Once LG&E completes our work, we will schedule crews to clean up and restore areas that have been disturbed to its original condition. The cleanup and restoration work will also occur as weather permits.

Should you have any questions or concerns, voicemail has been set up for. The contact person will be Fred Schneider and his number is (502) 333-1717.

Thanking you in advance for your cooperation.

Sincerely,
LG&E Real Estate and Right of Way Department
